Bariatric Bath Seats

Limited Lifetime Warranty on Frame

Model 1720 Series Bath Seats are designed to fit the contour of a standard bathtub. Vinyl grips on the tubing prevent from marring the tub. Tub must be 22” wide. This measurement must be taken at the center of the tub, inside wall to inside wall, and measure halfway down the wall and across to the other side of the bathtub. Model 1720 Series Bath Seats are designed for bathtub use. If you desire to use in a shower stall, you must insert the bath seat into a floor stand to prevent the bath seat from turning over.

Bariatric Tub Transfer Benches

Model 1730 Series Tub Transfer Benches are designed to fit standard bathtubs. Vinyl grips on tubing prevent marring tub. “Tube in a Tube” construction for added strength. Tub must be 22” wide at center of tub. Take this measurement halfway down the wall and measure inside wall to inside wall dimension. Perineal openings are 8”W x 10”L on 1730 Series and 9”W x 11”L on 1730X Series. Outside legs adjust from 18.5” to 20.5”. Although this item is universal, order R or L for bathroom configuration when possible.

ConvaQuip is proud to offer our newest Bariatric Shower Commode Chair. This is now available in 3 seat widths; 24”, 26” and 28”. This will minimize transfers for toiletry and bathing. One transfer from the bed to shower commode chair reduces the risk of injury to both the staff and the patient. The 24” wheels and 8” casters make the chair much easier for the care giver to push and maneuver. Features include a rigid corrosion resistant frame for durability and powder coat finish. Other features include removable arms, attendant mount rear locks, integral rear anti-tippers and removable footrests. Front opening allows for hygiene access and seat height allows positioning over a conventional toilet.

depending on item)
The Titan-X Electric Mobile Lift allows for safe transfers of patients weighing up to 1000lbs. The Titan-X is the only high capacity lift available with a super heavy duty electric/hydraulic actuator system. Unlike lifts that employ low cost electric worm gear actuators, the Titan-X is built for long-term institutional use and features true emergency manual lowering.

The industry exclusive power base widening system provides maximum caregiver injury protection. The oversize 4-point spreader bar and wide selection of standard and custom slings provide maximum patient comfort. Add the optional integrated digital weigh scale for a comprehensive, user-friendly, bariatric patient transfer and weighing solution. Sling not included, see sling guide.

Multi-Grip Push Bar
Ergonomic Control Panel with Extra Set of Controls
Extra Long Boom for Optimal Safety and Ease of use
Optional Digital Weigh Scale
Oversize 4-Point Spreader Bar for Maximum Comfort
Super Heavy Duty Electric/Hydraulic Actuator System
3 inch Front Casters for Low Bed Clearance
Power base widening
Integrated Heavy Duty Battery System and Charger
Emergency Manual Lowering System
Capacity 1000 lbs.

“We’re Big on People” Certified to 600 lbs.
The **Model STS600E** Sit to Stand Series is the ultimate solution for worry free patient transfers between bed, chair or commode. The right choice for facilities seeking to significantly cut injury risk associated with antiquated manual patient lifting practices. Standard and bariatric models available both very competitively priced. Combined with the unique specially designed Apex sling a new level of comfort and safety is achieved. These Sit to Stand lifts are an equally affordable option for residential use and the STS600E has set the standard for value. Do not attempt to use stand assist lifts unless the patient exhibits control over the upper body, strength to grasp the handles, ability to bear some weight and flexibility in knees, hips and ankles.

ORDERING: Order any Model or Part number specifying product name and quantity. Orders will not be invoiced to Medicare, Medicaid or any other Insurance Company. All orders require a hard copy Purchase Order and Number before order will be processed. All payments must be in U.S. Dollars.

SHIPPING: All shipments are FOB origin unless otherwise approved by management. All shipments will be shipped the most economical method unless purchaser requests otherwise and absorbs additional freight charges.

CREDIT/RETURNS: All returns must be pre-approved in advance by ConvaQuip and Return Authorization form must be returned with product to insure proper credit. Customer is responsible for freight when returning product. Restock Fee for all items is 20%. Used or altered items will not receive any credit. ConvaQuip reserves the right to refuse a refund after 60 days.

FREIGHT DAMAGE: The carrier who delivers our merchandise to you is responsible for loss and damages. Acceptance of the shipment by you is acknowledgment that all items were delivered in good condition. It is the responsibility of the receiver to open and inspect all packages. Failure to find and report concealed damages and reporting it immediately will result in a loss to the receiver. All claims for loss or damage must be filed immediately with the “FREIGHT CARRIER”. Then notify us as well. We will mark our records accordingly.

WHEN RETURNING AN ITEM, SHIPTO: ConvaQuip Ind., Inc. (Must have approved Return Authorization Form) 500 C.R. 239 Abilene, TX 79601

LIMITED WARRANTY
This Limited Warranty is extended to the original purchaser/user and cannot be transferred. All ConvaQuip products are warranted for minimum of One Year and up to Lifetime depending on the item against defects and workmanship. Parts and labor are warranted for 90 days.

Warranty Policy: Defective products or parts will be repaired or replaced, at ConvaQuip’s discretion by ConvaQuip or its appointed agent. The warranty does not cover damaged caused by shipping, misuse or negligence, nor does it cover defects or damages by use of parts or service by unauthorized persons. All freight charges for the returned products are the responsibility of the customer, including warranty work.

Warranty does not cover products damaged in shipping. It is the responsibility of the customer to inspect the delivery upon arrival. Should damages exist, report it immediately to the carrier. The carrier will be responsible for repairing or replacing the product. Failure to report these damages upon delivery could result in a loss to customer. All warranty work will require Model and Serial number.

WARRANTY EXCLUSIONS: Any products or services not paid in full according to the agreed terms of payment will make said Warranty Null and Void until all monies owed are paid in full, including any incurred expenses for collection of debt. Warranty will not be reinstated until all monies have been paid in full for products, services and collection fees. Please be advised that all collections involving a third party for hire, will result in a report to Dun and Bradstreet. Accordingly, no product, no parts or services will be sold to said customer until account is in good standing.
